DESCRIPTORS	*Annotated Bibliographies; Books; *Contraception; *Demography; Environmental Influences; *Family Planning; Periodicals; Population Trends; Reference Materials

ABSTRACT

The "Acquisitions List" of demographic books and articles is issued every two months by the Katharine Dexter McCormick Library. Divided into two parts, the first contains a list of books most recently acquired by the Library, each one annotated and also marked with the Library call number. The second part consists of a list of annotated articles, classified according to the Planned Parenthood-World Population (PPWP) Coding System, which have been selected from the 150 scientific and professional journals received by the Library. The purpose of the list is to assist PWP Affiliates and other organizations in easily arranging their informational materials in a systematic scheme. A form for ordering xeroxed copies of articles is included. (BL)

Acquisitions List No. 42
February 1972

The Acquisitions List, issued every two months, is divided into two sections as follows:

Part I: a list of the books most recently acquired by the Library, each one annotated, and also marked with its Library call number, to aid libraries which use the Library's classification system.

Part II: a list of annotated articles, selected from the 150 scientific and professional journals the Library receives, and classified according to the Library's FAMILY PLANNING CLASSIFICATION.

The purpose of the Acquisitions List is to assist PPWP Affiliates and other orgaizations in easily arranging their informational materials, both book and non-book, in a systematic scheme so that the information contained therein can be gotten at handily when needed.

For the convenience of those who want to order Xeroxed copies of the articles in the Monthly Acquisition List of the Katharine Dexter McCormick Library an order blank is now provided on the last pages of the List. Please use when ordering.

To reimburse the Library for the cost of Xeroxing, please include the payment of 10¢ a page. You can figure the total cost from the number of pages of each article, which is given on Order Page.

Books must be ordered from publishers; addresses provided at end of book list.

hu
HUNGER; MAN'S STUGGLE TO FEED HIMSELF, John Scott. N.Y.: Parent's Magazine Press, 1969. 181 pp. $4.50. Discusses the necessity for our utilizing our resources in such a way as to produce food and distribute it where needed.

ANIMAL POPULATIONS

5.7 M3 n — NATURAL REGULATION OF ANIMAL POPULATIONS, Ian A. McLaren, ed. N.Y.: Atherton, 1971. 195 pp. $7.95. Depicts the current state of knowledge as well as the great diversity of opinion re the effects of environment and population density on population dynamics, the influence of animal behavior on population growth, and the possibilities of genetic feedback or short-term evolutionary change in control of animal populations.

RELIGIOUS AND ETHICAL VIEWS ON FAMILY PLANNING

6. S6 e — ETHICS AND THE NEW MEDICINE, Harmon L. Smith. Nashville, Tenn.: Abingdon, 1970. 174 pp. $2.95 pap. A discussion of the ethical questions arising in connection with abortion, artificial insemination, organ transplantation, and the care of the dying.

SEXUAL BEHAVIOR

7.3 H3 f — 45 LEVELS TO SEXUAL UNDERSTANDING AND ENJOYMENT, Robert A. Harper and Walter Stokes. Englewood Cliffs, N.J.: Prentice-Hall, 1971. 231 pp. $6.95. Useful in the field of popular sex education and of value as supplemental reading in college courses dealing with sex, marriage and the family.

7.3 M1 s — THE SENSUOUS MAN; THE FIRST HOW-TO BOOK FOR THE MAN WHO WANTS TO BE A GREAT LOVER, "M". N.Y.: Lyle Stuart, 1971. 253 pp. $6.00

TEENAGERS AND SEX

7.31.2 D3 t — TWELVE TO SIXTEEN: EARLY ADOLESCENCE, Daedalus: Journal of the American Academy of Arts and Science, Fall 1971. Brookline, Mass.: American Academy of Arts & Sciences. 907-1232 pp. $2.50. This issue of Daedalus is a plea for a more systematic study of early adolescence, and for more up-to-date analyses of the condition of young people in industrial society.

STATUS OF WOMEN

7.4 F4 i — INDICATORS OF TRENDS IN THE STATUS OF AMERICAN WOMEN, Abbott L. Ferriss. N.Y.: Russell Sage Foundation, 1971. 451 pp. $6.95 pap. A detailed study comparing the status of women to that of men in regard to their numbers, education, marital status, fertility, labor force, status, employment, income, organizational membership, recreation and health.

EDUCATION IN FAMILY PLANNING AND HUMAN SEXUALITY FOR PROFESSIONALS

8.1 R7 e — EDUCATION IN LOVE: A PROGRAM IN FAMILY LIFE AND CHRISTIAN SEXUALITY; Teachers's Guide for Grades 1-8. Diocese of Rochester, Committee on Sex Education. Paramus, N.J.: Paulist Press, 1971. 111 pp. $2.95. A guide for teaching young people Christian views on human love and its expression in marriage, in sex, in sacrifice and in the bearing and raising of children.

Part II: Articles and Pamphlets

BIRTH CONTROL: METHODS

Orals - Side Effects (Clotting Disorders)

2.11.11 POLLER, L., et al.
Oestrogen/progestogen oral contraception and blood clotting: a long-term follow-up
British Medical Journal 4:648-650, December 11, 1971

None of the patients in this study suffered from thrombosis clinically but this trial was intended only to monitor the clotting changes in a small population of healthy normal women and not to provide data on the incidence of thrombosis.
(#333)

Orals - Side Effects (Cerebrovascular)

2.11.15 GOLDZIEHER, Joseph W., et al
Nervousness and depression attributed to oral contraceptives: a double-blind, placebo-controlled study
American Journal of Obstetrics & Gynecology 3:1013-1020, Dec. 15, 1971

In a placebo-controlled, double-blind trial of four oral contraceptive agents, 398 women were observed over 1,523 cycles.
(#334)

2.11.15 JAMES, William H.
Coital rates and the pill
Nature 234:555-556, December 31, 1971

The author suggests that endocrinologists might find it more rewarding to investigate the association between fluctuating male hormone levels and human coital rates since the husband has more say than the wife about the occurrence of marital coitus.
(#335)

BC: EVALUATION & MEDICAL STATUS

2.14 SCHROGIE, John J.
Facilities available for surveillance of the side effects of fertility regulating agents in the United States
Contraception 4:401-409, December 1971

The use of adverse drug reaction surveillance and multiphasic screening programs may identify more specific relationships between drugs, devices and diseases, and may stimulate the development of in-depth clinical evaluations or epidemiological studies of specific subjects such as thromboembolism and cancer.
(#336)

BC: INFERTILITY

2.2 DECKER, Albert
Psychogenic infertility: fact or fiction?
Medical Aspects of Human Sexuality 6:168ff, January 1972

Infertility may be designated "psychogenic" too early, before adequate physical testing has been done.

(#337)

BC: ABORTION

2.3 CRAFT, Ian and MUSA, Babayo
Induction of mid-trimester therapeutic abortion by intra-amniotic urea and intravenous oxytocin
The Lancet II for 1971:1058-1060, November 13, 1971

This technique, which was successful in each of a series of thirty patients (there were no serious side effects), has advantages over those more commonly used at present.

(#338)

2.3 FELTON, Gerald and SMITH, Roy
Administrative guidelines for an abortion service
American Journal of Nursing 72:108-109, January 1972

Establishing guidelines for an abortion service increases the care of the patients and helps reduce adverse staff reactions.

(#339)

2.3 KELLER, Christa and COPELAND, Pamela
Counseling the abortion patient is more than talk
American Journal of Nursing 72:102-106, January 1972

To be sure that the patient receives optimal care, the abortion service needs to be separated from the obstetric service and the nurses must be prepared to counsel the patient about what is happening to her.

(#340)

2.3 LEWIS, Stella C., et al
Outpatient termination of pregnancy
British Medical Journal 4:606-610, December 4, 1971

This study reports the initial experience followed by the gradual improvement in results commonly obtained when a new technique is introduced into clinical practice.

(#341)

Birth control: abortion (con't)

2.3 NATIONAL COUNCIL ON FAMILY RELATIONS
National Council on Family Relations: position paper on abortion
The Family Coordinator 20:401-402, October 1971

The NCFR has prepared a major statement on abortion. A minority report was also prepared. (For a copy, contact the National Council on Family Relations, 1219 University Avenue, S.E., Minneapolis, Minn. 55414.)

(#342)

2.3 RAWLINGS, E.E. and KHAN, A.A.
Effects of the abortion law, 1967, on a gynaecological unit
The Lancet II:1249-1251, December 4, 1971

The increased demand for abortions has been provided for by a reduction of stay in gynaecological patients; the "through-put" has increased and the waiting list diminished.

(#343)

2.3 STALLWORTHY, J.A., et al.
Legal abortion: a critical assessment of its risks
The Lancet II:1245-1249, December 4, 1971

A review of the methods used and the results obtained in 1182 legal abortions in one teaching hospital confirms that termination of pregnancy, even in the early weeks, is neither simple nor safe. Methods of reducing certain of these risks are indicated.

(#344)

2.3 TIETZE, Christopher
United States: therapeutic abortions, 1963 to 1968
Medical Gynaecology & Sociology 6:22ff, 1971

The data presented here may be used to arrive at rough estimates of the numbers of therepeutic abortions performed in all hospitals in the U.S. during the period 1963-1968.

(#345)

2.3 WEISMAN, Abner I.
Open legal abortion "on request" is working in New York City, but is it the answer?
American Journal of Obstetrics & Gynecology 112:138-143, Jan. 1, 1972

The New York State legislature must take the initiative and pass laws so that anyone who is sexually involved should be allowed the privilege and the right to be informed about preventing unwanted pregnancies.

(#346)

Birth Control (con't)

BC: STERILIZATION

2.4 (Female) SOGOLOW, Sidney R.
Vaginal tubal ligation at time of vacuum curettage for abortion
Obstetrics & Gynecology 38:888-892, December 1971

It is urged that vaginal tubal ligation at the time of vacuum curettage for therapeutic abortion be offered to those patients who desire sterilization.

(#347)

2.4 (Female) THOMPSON, Bruce and WHEELES, R. Clifford
Outpatient sterilization by laparoscopy
Obstetrics & Gynecology 38:912-915, December 1971

Reported here is a 28-month experience with outpatient sterilization which demonstrates the low complication rate and practicality of this procedure. Previous abdominal operation was not found to be a contraindication to this procedure.

(#348)

BC: RESEARCH IN CONTRACEPTION

2.61 DALE, Edwin and SIMPSON, Gale
Serum magnesium levels of women taking an oral or long-term injectable progestational contraceptive
Obstetrics & Gynecology 39:115-119, January 1972

No statistically significant differences for magnesium levels of women utilizing oral contraceptives and their controls were found. The results are discussed as they relate to chemical contraceptives and blood clotting mechanisms.

(#349)

BC: LEGISLATION & LEGAL STATUS

2.7 CURRAN, William J.
The birth of a healthy child due to negligent failure of "pill": Benefit or loss?
New England Journal of Medicine 285:1063-1064, November 4, 1971
(#350)

Birth control (con't)

Testing

2.88 Sickle Cell
NALBANDIAN, Robert M., et al
An automated mass screening program for sickle cell disease
JAMA 218:1680-1682, December 13, 1971

Country-wide adoption of an automated dithionite test should lead to the accumulation of accurate statistics for the first time on incidence, morbidity, gene frequency, and susceptibility to other diseases of sickle-cell-afflicted individuals.

(#351)

2.88 Sickle Cell
PEARSON, Howard A.
Progress in early diagnosis of sickle cell disease
Children 18:222-226, November-December 1971

Because there is no cure for sickle cell anemia, prevention offers the only method currently available to avoid the problems inherent in having children with the disease. Screening programs must incorporate meaningful education about the nature of the disease and its mode of inheritance, as well as individual counselling.

(#352)

FAMILY PLANNING: CHILD CARE & HEALTH

3.12
BLINICK, George
Fertility of narcotics, addicts and effects of addiction on the offspring Social Biology 18:S34-S39, 1971 (Supplement)

In women treated with large doses of methadone, regular menstruation, ovulation, conception and normal pregnancy takes place. No congenital anomalies have been found. On follow-up visit the babies so far have shown normal physical and intellectual development.

(#353)

FP: MENTAL RETARDATION

3.13
FALEK, Arthur
Differential fertility and intelligence: current status of the problem
Social Biology 18:S50-S59, 1971 (Supplement)

A program of incentive awards for maintaining small families should be incorporated into the educational curriculum for retardates. To permit the program every chance for success it would be important to provide counseling and information with regard to family planning to parents of severely affected children.

(#354)

FP: Mental retardation (con't)

3.13 REED, Elizabeth W.
Mental retardation and fertility
Social Biology 18:S42-S49, 1971 (Supplement)

An analysis of reproductive data of a population of descendants from the grandparents of 289 institutionalized ratardates showed that they have a high risk of having retarded children.
(#355)

FP: MENTAL HEALTH

3.14 SLATER, Eliot, et al
Marriage and fertility of psychiatric patients compared with national data
Social Biology 18:S60-S73, 1971 (Supplement)

Report on the fertility and marriage rates of a sample of patients included both in-patients and out-patients and which was large enough for consideration of five separate diagnostic groups.

Knowledge, Attitude and Practice

3.61 Abortion BRANSON, Helen
Nurses talk about abortion
American Journal of Nursing 72:106-109, January 1972

A survey of fifty nurses in Hawaii where for-two-and-a-half years there has been a liberal abortion law.
(#357)

3.61 Abortion KIBEL, Howard D.
Staff reactions to abortion: a psychiatrist's view
Obstetrics & Gynecology 39:128-133, January 1972

Obstetricians and obstetrical nurses have been trained to preserve life, therefore, the whole concept of abortion can be philosophically disturbing. It will take a considerable amount of in-service training and re-education to alleviate difficulties that have occurred in this area.
(#358)

FP: Research (con't)

3.61
x7.4 LIPMAN-BLUMEN, Jean
How ideology shapes women's lives
Scientific American 226:34-42, January 1972

Data from a survey of college women reveal that a woman's life goals, particularly her educational and occupational aspirations, are guided by the type of sex-role ideology acquired in childhood.
